

# THE— Lexington Intelligencer

A. W. ALLEN, Editor and Publisher.

Issued weekly on Fridays. Subscription \$1.50 per year, payable strictly in advance.

Entered as second-class mail matter at the Postoffice in Lexington, Missouri.

All communications to go into print in THE INTELLIGENCER must be signed.

## ANNOUNCEMENTS

We are authorized to announce F. G. YOUNG as a candidate for the office of Circuit Clerk of Lafayette County, subject to the action of the Democratic voters at the primary election August 1, 1922.

It's a foregone conclusion that William Hohenzollern will not be invited to Princess Mary's wedding.

Sneeze into your handkerchief, not into the community; you get just as good a sneeze, and the community may avoid an epidemic.

There are one hundred women in the penitentiary at Jefferson City. More than half of these are Federal prisoners, women convicted of violating the Harrison Narcotic Act.

You may not have thought about it but Wednesday was the last time that you will be able to write, the month, day of the month and year with one figure, viz: 2-22-22. This also occurred on Jan. 11, 1911.

## Chronic Constipation.

There are people who never have a movement of the bowels without it is produced by a cathartic. Most of them have brought that condition on themselves by the use of mineral waters and strong cathartics that take too much water out of the system and aggravate the disease they are meant to relieve. A mild laxative tonic like Chamberlain's Tablets affords a gentle movement of the bowels that you hardly realize has been produced by a medicine, and their use is not so likely to be followed by constipation. Adv.

Mr. and Mrs. R. H. Ferguson were called to Ottawa, Kansas, Monday by the sudden death of Mr. Ferguson's father, R. F. Ferguson.

## Periodic Bilious Attacks.

Persons subject to periodic bilious attacks will observe that their appetite fails them just before an attack. That is, they do not really crave food but eat because it is meal time. If they will eat only a light meal and no meat, then take two of Chamberlain's Tablets the attack may be avoided. Adv.

## WHEN EVERY MOVE HURTS

Lame ever morning, achy and stiff all day, worse when it's damp or chilly? Suspect your kidneys and try the remedy your neighbors use. Ask your neighbor.

Mrs. Paul Frischer, 1114 S. W. Boulevard, Lexington, says: "Two years ago my kidneys were in a weak condition. Sharp pains struck me in my back and I suffered severely. When I stooped or lifted anything I could scarcely straighten and I was often so lame and sore I could hardly go on with my work. I had dizzy spells and would become so faint that I would often have to sit down. I had frequent nervous spells and became much worried about my condition. Doan's Kidney Pills had been used by other members of the family with great success so I got a few boxes at Crenshaw & Young's Drug store and they quickly relieved me of all the trouble. Doan's Kidney Pills are certainly a splendid remedy."

60c, at all dealers. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

Harry Hare of Kansas City, is visiting with relatives in Lexington.

Mrs. S. Maxey of Kansas City, arrived Saturday for a few days' visit here with relatives.

## Dollars and Cents.

Counting it only in dollars and cents, how much did that last cold cost you? A man may not always stop work when he has a cold, but perhaps it would be better if he did. It takes about ten days to get completely rid of a cold under the usual treatment. That time can be much shortened by taking Chamberlain's Cough Remedy and proper care of yourself, in fact, a bottle of this remedy in the house is a mighty good investment during the winter and spring months. Adv.

Mr. and Mrs. Oscar Grandorff of Kansas City, spent Sunday in Lexington with relatives.

John Cahill of Kansas City, is spending a few days in Lexington with friends and relatives.

## For The Children.

Too much care cannot be exercised in selecting a cough medicine for children. It should be pleasant to take, contain no harmful drug and most effectual in curing their coughs and colds. Long experience has shown that Chamberlain's Cough Remedy meets these conditions. It is a favorite with many mothers. Adv.

## FARM BUREAU NEWS

### U. S. Grain Growers Election.

A meeting of the delegates from the various U. S. Grain Grower locals in the Seventh congressional district will be held at the Farm Bureau office this Wednesday for the election of a delegate to the national convention at Chicago.

### Poultry Reports.

Reports of the poultry co-operators for January show a very good average in most flocks. A study of the reports shows that there is quite a direct relation between the amount of the Missouri mash the hens ate and the egg record. Some flocks that have been making a good egg record, fell down for December and the answer was found in the amount of mash the hens ate due to the fact that the flocks did not have the personal supervision that they should have had. The reports are as follows:

lows: average eggs per hen—  
W. S. Strode, Bates City 13.5  
Mrs. F. H. Cottrell, B. C. 12.6  
Rev. Sam Heusi, Higville 10.5  
F. B. Herman, Bates City 10.1  
Mrs. A. W. Duvall, Waverly 8.6  
Aug. Rodenberg, Napoleon 7.6  
Mrs. C. H. Prock, Napoleon 6.9  
Mrs. Chas. Seuser, Corder 6.5  
Mrs. S. T. McCormick, B. C. 6.5  
Mrs. Jno. F. Bear, Higville 5.0  
Mrs. H. C. Bartels, May'ew 6.0  
Mrs. G. C. Pearson, B. C. 5.9  
E. J. Rodekohr, Corder 5.13  
Mrs. Frank D. Brown, B. C. 5.0  
Mrs. M. H. Sanders, May'ew 4.7  
Mrs. B. L. Groom, B. C. 1.7

### The Missouri Plan.

Discussion of the Missouri plan of flock improvement with a few poultry men of the county has brought out the fact that a few have a very vague idea of what this project is. The plan is based on the record of the poultry co-operators who keep reports for a year previous to having their flock certified. The idea is not to certify all flocks but only those of outstanding poultrymen in order that other farmers may be able to secure seed stock and eggs for the improvement of their flocks. While the certification is based on egg production the "flock" being required to average 2.5 eggs per hen for the months of November, December, January and February, yet no bird showing standard disqualifications is eligible to certification. The idea is to work with the best flocks that have been developed for show purposes and while holding their show standard to improve their egg production. The slogan for the Missouri plan is to make the useful more beautiful and the beautiful more useful. Combined with this of course is the Missouri plan of feeding, housing and general care of the flock.

### Shipping Eggs Direct.

Many farmers are finding it very advantageous to ship eggs by express direct to dealers in New York. Those practicing this method of marketing are receiving from one to eight dollars per case margin over net prices offered locally. Additional competition in the Higginsville district is reducing the margin between home prices and central markets.

### Hog Equipment Tour.

The tour of hog farms for the purpose of inspecting equipment on various farms held Wednesday, February 15th, was a decided success but was not as largely attended as it should have been. While no plans were observed that would be adopted in their entirety, every farm visited showed many phases in hog equipment that would prove valuable and note books were busy at each place making memorandums of interesting features.

## Home Grown Soy Beans.

Efforts are being made by the Farm Bureau to line up all elevators and seed houses in the county to handle only Lafayette County grown soy beans this year. Farmers will be working to their own advantage if they demand Lafayette County grown beans as many of the beans being offered for sale are old beans which will show probably not higher than a 50 per cent germination. Lafayette Co. farmers have an abundance of soy beans for sale and every farmer who expects to hog down any corn or who can run sheep in the corn field or who has a silo to fill will make no mistake in planting the beans with the corn. Beans should also take a part of the acreage normally devoted to oats as it is a better money making crop.

### Project Meeting.

The County Project Committee held in the Farm Bureau office Saturday, February 18th, was well attended and the organization is getting in good working order. Mrs. Chas. Seuser, county leader in the poultry project and L. O. Rechterman, county leader of the soil project made reports and plans for their projects. A recreation project was discussed and adopted.

### Home Economics Work.

The week of February 13 to 18 the Home Demonstration Agent instructed Mrs. E. E. Roderick and Miss Ena Igo of the Hicklin district how to make dress forms. This was accomplished at a dress form demonstration given at E. E. Roderick's February 14th. Twelve women were present, lunch was served at noon after which a demonstration was made with a dish drainer. The results were very satisfactory. Four forms were made.

Mrs. Joe Williams and Miss Ena Igo very appropriately remembered each guest with a valentine. This added to the good feeling of the gathering.

The Home Demonstration Agent gave another class of instruction in making dress forms at Misses Lena and Irene Seuser's house. Six women were present and four forms were made. A home demonstration was established with dish drainer and reported on favorably. The girls will be glad to help any one in their neighborhood make forms or tell them how to use a dish drainer and give their experience with it.

The dish drainer used in both the above demonstrations is a circular one which fits into a dish pan. This one was presented to the Farm Bureau by Downing Bros. The graduated dish drainer, presented to the Farm Bureau by the Graudated Dish Drier Co., is also available for home demonstration and public demonstrations. On proper application at the Farm Bureau office one of these practical utensils may be taken home and used for a short time so their utility and economy may be tested and proven to the satisfaction of the housewife.
